

Sairam SDG IDEATH N

IDEA ENGINEERING (02 Credits)

- Immersion Program & Filed Exposure Visit
- Educating Critical Thinking
- Idea Generation Aligned with SDG
- Goal wise & Domain wise Distribution

PRODUCT DEVELOPMENT (10 Credits)

- Final Project Development
- Paper / Patent Publication
- Technology Transfer
- Setting up a start-up

INNOVATIVE DESIGN (02 Credits)

- Educating Design Thinking
- Entrepreneurship Education
- Learning Space & Tools
- Business Model Canvas

PROTOTYPE DEVELOPMENT (02 Credits)

- Bootcamp / Technology Training
- Training on Business Pitching
- Technology Readiness Level Assessment
- Showcasing project locally/ globally

Sairam SDG INNOVATHON

AN INITIATIVE BY AN ENGINEERING AND TECHNOLOGY INSTITUTION
TO GENERATE MASS ENTREPRENEURSHIP

App Development SDG Synergy

PRIMARY SDG GOAL NO: 17

SECONDARY SDG GOAL NO: 9

TERTIARY SDG GOAL NO: 4

1. Primary SDG SAP Code

1. SAP1716
2. SAP1717
3. SAP1718

2. Secondary SDG SAP Code

1. SAP0904
2. SAP0905
3. SAP090B

3. Tertiary SDG SAP Code

1. SAP0404
2. SAP040A
3. SAP040C

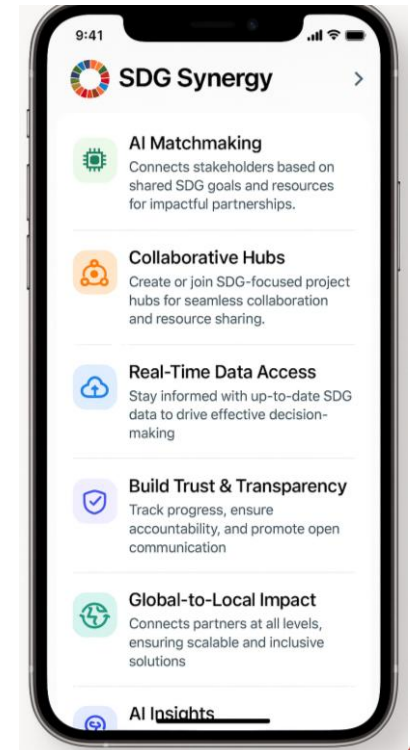

OBJECTIVE OF THE IDEA PROPOSED

- **Promotes High-Impact Partnerships:** Accelerates progress toward the UN's Sustainable Development Goals (SDGs) by connecting NGOs, governments, businesses, and individuals.
- **AI-Powered Matchmaking:** Connects stakeholders based on shared goals, resources, and needs, optimizing collaboration.
- **Boosts Cross-Sector Collaboration:** Drives synergies for a unified approach to global sustainability.
- **Efficient Resource Mobilization:** Ensures resources are allocated effectively to support impactful partnerships.
- **Data-Driven Insights:** Provides intelligent recommendations for scalable, purposeful partnerships.
- **Results-Oriented:** Focuses on creating sustainable, tangible solutions through strategic collaboration.

PROPOSED SOLUTION FOR THE PROBLEM

- **AI Matchmaking:** Connects stakeholders based on shared SDG goals and resources for impactful partnerships.
- **Collaborative Hubs:** Create or join SDG-focused project hubs for seamless collaboration and resource sharing.
- **Real-Time Data Access:** Stay informed with up-to-date SDG data to drive effective decision-making.
- **Build Trust & Transparency:** Track progress, ensure accountability, and promote open communication. It will also have multilingual support and regional adaptability.
- **Global-to-Local Impact:** Connects partners at all levels, ensuring scalable and inclusive solutions.
- **AI Insights:** Provides tailored recommendations to keep collaborations aligned with sustainability goals.

INNOVATION BEHIND THE IDEA

**AI-Powered
Collaboration**

**Data-Driven
Decision
Making**

**Collaborative
Hubs for
Resource
Sharing**

**Global-to-
Local Impact**

MOTIVATION FOR SELECTING THIS IDEA

- **Bridging the Gap:** SDG Synergy enables smarter, more effective partnerships to achieve SDGs, addressing the limitations of existing platforms.
- **AI-Driven Connections:** Matches stakeholders through AI to accelerate sustainable impact.
- **Comprehensive Solution:** Integrates matchmaking, collaboration, and impact tracking in one platform.
- **Empowering Grassroots:** Connects underrepresented voices with global partners.
- **Inclusive & Impactful:** Fosters results-driven, inclusive collaborations for sustainability.

PRODUCTABILITY AND FEASIBILITY

1. **Technologically Viable:** Built using existing AI, mobile, and cloud infrastructure—no need for novel hardware or experimental tech.
2. **High Demand:** Fills a current gap by enabling actionable SDG collaborations beyond basic networking.
3. **Scalable Design:** Easily adaptable for global or local use, with modular features and cloud support.
4. **Policy Alignment:** Strong fit with global sustainability agendas and funding frameworks.
5. **Partnership-Ready:** Opportunity for collaboration with NGOs, UN bodies, and governments to boost adoption.

SDG Synergy is a highly feasible solution—both technologically and socially—offering a scalable, mission-driven platform well-suited for real-world impact in the sustainable development ecosystem.

CHALLENGES AND POSSIBLE SOLUTIONS

1. Data Security – Stakeholder-Specific Encryption Layers (SSEL)

Multi-key encryption lets each stakeholder access only relevant data layers, enhancing privacy without siloing information.

2. AI Bias – Federated Feedback Loops (FFL)

Users provide anonymized feedback to fine-tune AI locally, reducing regional and sectoral bias through federated learning.

3. User Engagement – SDG Impact Quests

Gamified, location-based missions reward users with badges and collaboration credits, boosting participation and visibility.

4. System Integration – Plug-and-Play SDG APIs

AI auto-maps external data to SDG indicators, enabling seamless integration with minimal manual effort.

ADVANTAGES

- ❖ **Promotes Cross-Sector Collaboration:** Bridges gaps between NGOs, governments, businesses, and individuals, encouraging diverse and inclusive partnerships.
- ❖ **Efficient Resource Mobilization:** Optimizes the use of available resources by identifying complementary strengths and minimizing
- ❖ **Scalable and Inclusive:** Supports both global and local initiatives, making the platform adaptable to various scales and socio-economic contexts
- ❖ **Data-Driven Decision Making:** Empowers users with real-time SDG insights and analytics to inform strategies and drive evidence-based actions.

BUDGET

Category	Description	Estimated Cost (INR)
Mobile App Development	Basic Android and iOS app with login, matchmaking, and SDG info	₹30,000 – 35,000
Website Development	Simple responsive website with basic info and user login	₹15,000 – 18,000
Backend & Database	Firebase or Node.js backend with simple data handling	₹10,000 – 15,000
UI/UX Design	Clean, functional design using Figma/Canva	₹2,000 - 5,000 (per month)
Cloud Hosting & Domain	Firebase (free tier), basic hosting, and domain registration	₹2,000 - 5,000 (per month)
Testing & Miscellaneous	Basic testing, minor changes, contingency	₹5,000 – 12,000

Total Budget(approx.): ₹70,000 – ₹90,000

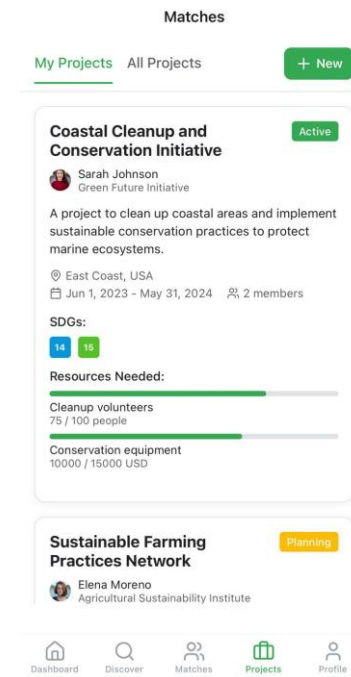

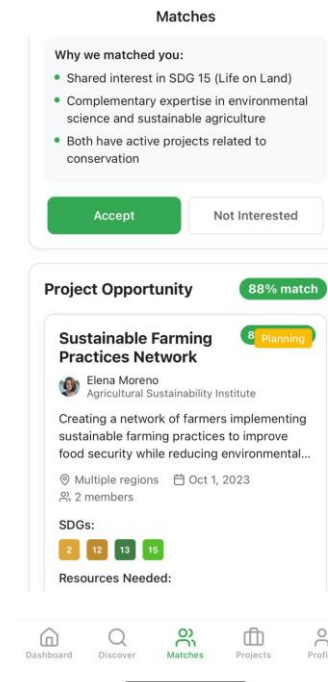

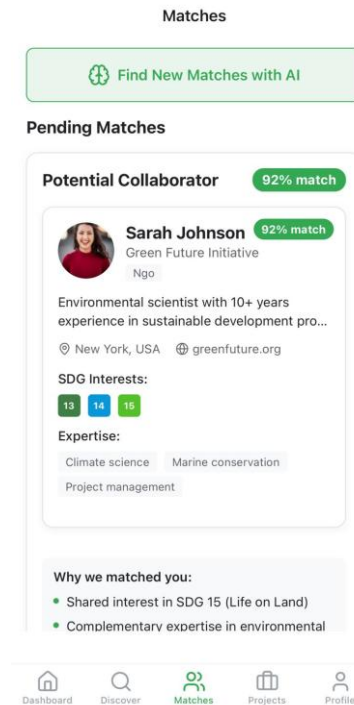

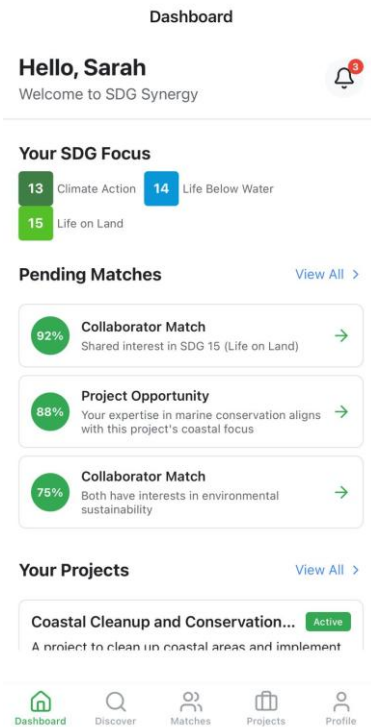

IMPACT ON SOCIETY

- **Strengthens Global & Local Partnerships:** Connects diverse stakeholders to drive collaborative SDG progress.
- **Enables Cross-Sector Innovation:** Fosters partnerships that support sustainable growth and infrastructure.
- **Bridges Resources & Needs:** Links well-resourced organizations with high-need areas for equitable development.
- **Promotes Trust & Transparency:** Builds credible, accountable networks within the global development space.
- **Empowers Through Data:** Leverages real-time insights to ensure SDG efforts are measurable, visible, and scalable.

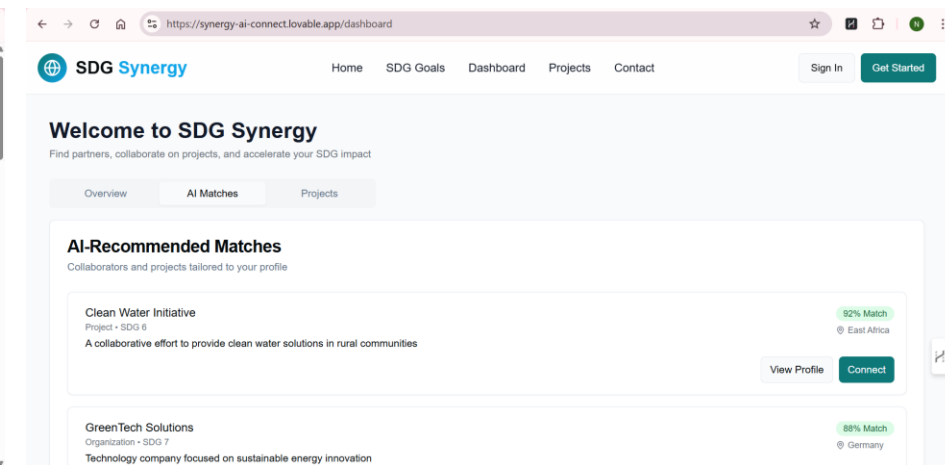

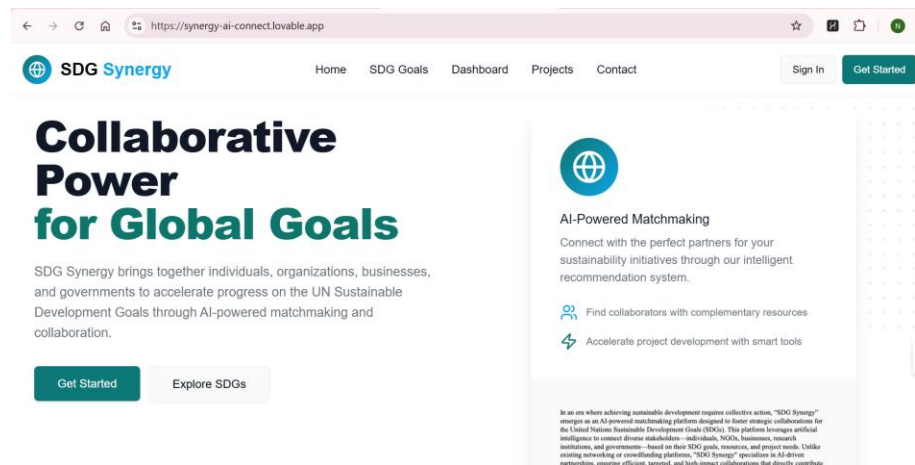

OUR APP (BASIC MODEL)

We created a basic model of our app. Here are some pictures of it

CONCLUSION

**“When the right people
meet with the right data,
change scales fast.”**

**“From connection to
transformation — bridging
the world through smart
sustainability.”**

**“Collaboration is the
foundation. Sustainability
is the outcome.”**
